VOL. XV RENO. WASHOE COUNTY. NEVADA, WEDNESDAY, AUGUST 29, 1883. NO. 129

MISCELLANEOUS.

Know

That BROWN'S IRON BITTERS will cure the worst case of dyspepsia.

Will insure a hearty appetite and increased digestion.

Cures general debility, and gives a new lease of life.

Dispels nervous depression and low spirits.

Restores an exhausted nursing mother to full strength and gives abundant sustenance for her child.

Strengthens the muscles and nerves, enriches the blood.

Overcomes weakness, wakefulness, and lack of energy

Keeps off all chills, fevers, and other malarial poison.

Will infuse with new life the weakest invalid.

27 Walker St., Baltimore, Dec. 1881.
For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing BROWN'S IRON BITTERS advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time.
Mrs. L. F. GRIFFIN.

BROWN'S IRON BITTERS will have a better tonic effect upon any one who needs "bracing up," than any medicine made.

COAST NEWS.

Robert Watson was killed by falling from a tree, near Seattle.

A Santa Ana, Cal., farmer received at the rate of $2,300 per acre for his apricots.

Wm. T. Beach was robbed of $200 and five horses by road agents near Duncan, Arizona.

Johnston Robertson, who was beaten by Daniel Lavan, at Seattle, is not expected to live.

Diphtheria is prevalent in and about Kirbyville, Josephine county Or. Several deaths have occured.

Near Grass Valley, Cal., Daniel O'Donnell was thrown from his horse and sustained serious injuries.

A. G. Utley was killed by John Franklin in a row at Davis Creek, Modoc county, Cal., last week. The murderer is at large.

Governors of States, Mayors of cities, Prelates of the church, endorse and recommend St. Jacobs Oil, the great pain-reliever.

The Adin *Argus* has entered upon its third volume and as it is a bright and newsy paper it bids fair to celebrate many more aniversaries.

Gold has been discovered in Alaska, but it is badly frozen in, and we have no Russian convict system. The gold will probably remain in Alaska.

In a collision between the east bound express and the down freight near Pinole Station, on the C. P. R. R., Thomas Harper, of Sacramento, was badly bruised.

At Poway last week N. H. Dodson shot and killed Cornelius Feeler. The homicide was the result of a quarrel and it is claimed that Dodson acted in self-defense.

The street railroad companies at Los Angeles are fighting each other in the Courts in that city. The right of way over certain streets is the main question involved.

Last Wednesday Genievieve, the two-and-a-half-year-old child of Millard T. Davis, of Middle Fork Cottonwood, western Shasta fell into a pail of scalding water and was scalded to death.

The fact that hazel nuts grow wild in great profusion about Calistoga, Cal., and in Pope valley, leads a Napa paper to the conclusion that the filbert could be successfully cultivated in Napa county.

Little Lillian Smith, the California child who is such a wonderful rifle-shot, thinks nothing of shooting wild doves on the wing with a Ballard rifle. It is said that she recently killed a running squirrel at a distance of nearly 200 yards.

Being entirely vegetable, no particular care is required while using Dr. Pierce's "Pleasant Purgative Pellets" They operate without disturbance to the constitution, diet, or occupation. For sick headache, constipation, impure blood, dizziness, sour eructations from the stomach, bad taste in the mouth, bilious attacks, pain in the region of the kidney, internal fever, bloated feeling about stomach, rush of blood to head, take Dr. Pierce's "pellets." By druggists.

Good health, rosy cheeks and beautiful skin ladies can get by using Brown's Iron Bitters.

Hope for Drunkards.

My husband had drunken habits he could not overcome until Parker's Ginger Tonic took away his thirst for stimulants, restored his old energy of mind and nerves, and gave him strength to attend to business.—Cincinnati lady. jy30-

Drugs and Patent Medicines

Swindlers and Their Victims—How Careless People Suffer in Health and Pocket.

Every streak of sunshine creates a shadow, and behind every truth crouches its corresponding lie. Whosoever has not been in some way fooled and robbed by swindlers and their works has had better luck in life than most mortals. In fact the best witnesses to the value of a given article are the counterfeits and imitations which seek to share its success without possessing a fraction of its merit. Hence it goes without saying that

BENSON'S CAPCINE POROUS PLASTERS.

Are pursued by a host of miserable and worthless imitators, eager to appropriate what they can of the fruits of its victories. These leeches commonly take the form of a cheap plaster.

Now, these worthless and harmless plasters would be detected in a minute if people were careful in reading and remembering names. But most persons merrly glance at them, understand partially and forget instantly. What result? This: Desiring to buy BENSON'S CAPCINE POROUS PLASTER, their own carelessness enables some storekeeper or druggist, who cares more for five or ten cents additional profit than for the sweets of an approving conscious, to roll them up instead some cheap imitation with a similar name. The deceit often works, while the fraudulent plasters never do.

Don't permit yourself to be thus victimized for lack of a moment's care. BENSON'S CAPCINE POROUS PLASTERS have stood the test of science and experience and are the product of both. Examine the article and satisfy yourself that the word CAPCINE is cut in it.

Seabury & Johnson, Pharmaceutical Chemists, New York. Highest awards—at International Expositions.

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: **Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION,** and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "**scavengers of the system,**" producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect

ANTIDOTE TO MALARIA.

BURDOCK'S

PATENT REFRIGERATOR

—FOR—

Keeping Butter Without Ice.

B. N. BUGBEY,

329, J STREET, SACRAMENTO,

SOLE PROPRIETOR

OF THE UNITED STATES.

IT PRESERVES YOUR BUTTER COLD, sweet and fresh, as no other refrigerator can do. This is guaranteed. It is a fact long established by all connoisseurs of butter, that any vessel, cabinet or refrigerator, made of wood or any other substance carrying with it an odor, destroys the rich aroma contained in fresh butter; and furthermore all butter kept in the same vessel, cabinet or refrigerator with vegetables, any kind of meat, or any substance carrying a scent, becomes so tainted as to be unfit for table use, and even for culinary purposes. People may complain of poor butter, but the fault lies in the manner of keeping it.

LET TEMPERANCE BE TEMPERATE.

There is no question, whether of morals or economics, now agitating the public mind, of more importance than the treatment of intemperance. The statistics of some of our prisons show that seven-eighths of their inmates reach their wretched condition through drunkenness. The withdrawal of such a multitude from active industry, the pauperism directly entailed upon thousands, the insecurity of property, and the heavy tax on the community for their support and for the support of the machinery that seizes and disposes of them, give us the economic side of the giant evil; while the moral side, infinitely more sad and appalling, is represented in the rending asunder of families, the multiplication of criminals, and the disintegration and degradation of society. How to deal with such a question is the problem of the hour. A witty writer recently said that the most intemperate thing about the temperance movement was the intemperance of conduct of the total abstinence societies, and in one sense he was right. The movement makes no discrimination between things that differ. Fermented wine differs as widely from distilled rum or whiskey as coffee differs from opium, and yet this prohibitory movement ties them up in the same bundle and puts the one label on the whole! Human reason revolts at such arbitrary dealing! Men will not believe that a glass of wine at the dinner table and a glass of whiskey at the bar are the same thing, any more than they will believe that a cup of coffee at the dinner table and a whiff of opium at Ah Ching's are the same thing. Men will not believe that a glass of wine is the beginning of drunkenness, although they have heard it asserted *ad nauseam* all their lives. Men will not believe that the fermented juice of the grape from Nature's own process is to be classed with the results of manufacture through man's alembics. Men will not believe that the universal praise of wine by every people in all ages, including the sacred writers of the Holy Scriptures, is an error and a sin. One of the chief reasons of the ill success of the temperance movements of past years is this failure to discriminate, and by carrying this plan into the present effort the temperance leaders are showing that they learn nothing from the past. The improvement among educated people in the drinking customs of society is due, not to any of these extreme total abstinence movements, but to the general growth of sensible temperance; and yet these fanatical people claim it as *their* triumph and go on in their most mistaken policy. The total abstinence movement has always been a hinderance to true temperance reform, by setting sensible people against all proper effort to help reform on account of the absurd complexion the reform has assumed. The vast numbers in the United States who would have fought as splendid soldiers for temperance have remained comparatively idle all these years, through fear of being identified with the extremists who had usurped the title of Temperance men. All this loss is rightfully laid at the door of the Total Abstinence propaganda. That the temperance question should be made a political question is most desirable. No question more vitally concerns the whole country with respect to its highest welfare. We should have temperance men in office and temperance laws enacted. But temperance must be temperance. It must be a sensible and practical scheme that sensible and practical men will support which shall bring about the desired reformation. It must be a scheme which the great majority of moral men will recognize to be sound in its logic and even in its justice. Anything else than this may, under pressure of an excitement, achieve a temporary success, but only this will be a cure of the rampant abomination. The only end of this enormity will be in the union of the majority, and this can never be effected by extreme measures or fanatical pronunciamentos. Discrimination between liquors that are hurtful and those that are (in moderate use) healthful; discrimination between modes of drinking, as treating and drinking at meals; discrimination between places for drinking only and places for lunch or dinner; discrimination between drinking on the premises where the liquor is sold and drinking it at home; discrimination between day and night in the sale,—these and other like discriminations are to be made in place of the sweeping demands of the ultra men if a union of temperance forces is to be consummated. Without this union the evil must go on propagating itself daily, and on the so-called temperance leaders must rest the blame. They have constituted an unreasonable shibboteth. When they abandon that the enemy will be conquered, unless meanwhile the enemy shall have conquered all the ground and made our land a moral desert.

WESTERN DISPATCHES

[PRESS DISPATCHES TO THE GAZETTE.]

SAN FRANCISCO NEWS.

Acquitted—Rapid Progress—Munitions of War—Arrested for Murder.

SAN FRANCISCO, August 28.

It is stated, though not officially, that Lieutenant-Colonel Bryant, recently tried by court-martial for alleged misconduct, has been acquitted, and Captain Wilhelm, the prosecuting witness has been ordered to Fort Bidwell.

Word has been received in this city that the work of dredging the Panama canal is progressing at the rate of 10,000 cubic yards per day. This is the work of one dredger; in six weeks another dredger will be at work, and in nine weeks, still another. The line of the canal has been sounded for two-thirds of the distance from Aspinwall, and it is found that the entire length can be dredged, and no blasting will be necessary; this fact is looked upon as of the greatest importance, as it will facilitate the work immensely, and enable the canal to be completed so much sooner.

The City of Peking which sails next Tuesday for China, has on board a large shipment of war material; the manifest shows a consignment of 375 cases of 1,000 cartridges each, and 100 cases of firearms.

William H. Sherrett, a lad of 14 years, was arrested yesterday, charged with the murder of Patrick Theodore Cullen, of the same age of the accused. Both have been employed as cash boys in a large dry goods store in this city. They got into a fight on the 9th of last month, in the course of which, it is alleged, Sherrett struck the deceased with a rock, which he held in his hand, inflicting fatal injuries.

Don't Like the "Tribune."

SALT LAKE, August 28.

Articles inciting the Mormons to mob violence appeared in the Church papers of last evening and this morning. Their wrath is directed against the *Tribune* for stating that the negro murderer of Burt, while in the hands of the officers, was disgracefully beaten and then turned over to the mob to be hanged. The whole intent and purpose of the incendiary and cowardly articles is to incite the Mormons to mob the *Tribune* office.

He Talked Too Much.

SHASTA, August 28.

Yesterday a stranger got drunk at French Gulch, and talked so fiercely and knowingly of the recent stage robbery in Oregon that it was surmised he was one of the robbers. Consequently he was arrested, and to-day he was brought to Shasta and committed to jail.

Towns and Light-houses Destroyed

LONDON, August 29.

A dispatch from Batavia, Java, says the towns of Angier, Tjeringine and Tilokbelong are destroyed by volcanic eruptions. All the light-houses in Sunda Straits have disappeared, and where the Mountain of Kramatar formerly stood the sea flows. The aspect of Sunda Straits is much changed, and navigation is dangerous.

Imperial Magnanimity.

BERLIN, August 29.

The Emperor will review the guards to-day instead of on the anniversary of the victory of Sedan. It is reported, that out of deference to the feelings of the French, the Emperor has decided to change the day of the review.

—Advices from Batavia say a tidal wave has completely destroyed Angier; many persons were killed, the loss of life among both Europeans and natives at North Bontam being enormous.

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

Frightful Steamboat Explosion and Terrible Loss of Life.

NEW YORK, August 28.

At about 5:30 o'clock this afternoon the people who were in the neighborhood of the foot of Fourteenth street and North river were startled by the sound of an explosion, coming from the direction of the river. Looking out in midstream, they saw the Hudson river steamer Riverdale enveloped in steam. In less than six minutes afterwards she keeled to the side and capsized opposite Sixteenth street, she having floated that far. Instantly about 15 different tug steamers from this city and Hoboken started to where the sunken vessel lay. There were were over 100 passengers on board the Riverdale when she left the foot of Harrison street for Haverstrand. Some of these were whirled into the air and then fell back into the water. Others were compelled to jump into the river to escape the hissing, scalding steam that filled all parts of the vessel, or to avoid going down with her.

The cause of the disaster was the explosion of her boiler, which was amidships. When the boiler burst the air was filled with flying debris and broken wood-work, and the pilot house snapped like a pipe stem and toppled over into the water. About 50 people lost their lives. Some were blown into eternity, and others met their deaths by being drawn into the whirlpool caused by the sinking of the vessel. Those who were floating or swimming about in the river were picked up by tugs and row boats that came to the rescue. Three bodies were also brought in by boats—Mrs. Sisson of Tarrytown, N. Y., an unknown man, whose body was taken to the morgue, and a boy whose identity has not been ascertained. The injured were: Howard Gardner, Yonkers, N. Y.; John Kelly, deck-hand, of Englewood, N. J., arms broken; John Moran, deck-hand, of Williamsburg, N. Y., legs and side crushed; Thomas J. Saul, passenger, 274 Somers street, Brooklyn, scalded; John Sattire, mate of the vessel, left thigh badly crushed; John Gives of this city, aged 24, badly scalded, and in an extremely critical condition.

The firemen and several engines and hook-and-ladder companies stationed nearest to the scene of disaster were called out without their apparatus, and did good service, as did also members of the steamboat squad of police.

Michael Kililea, of Charles street station, was first to get the wounded fireman, Adams, on shore. He said: "I never saw a man in such suffering, and I hope I may not witness such another sight. The poor fellow screamed, and his flesh was coming off in blisters. I called at once an ambulance driver nearest me and had the unfortunate man sent to St. Vincent's Hospital. I then went in search of other injured persons, and when I came to the foot of Fourteenth street I saw a man pulling rapidly to the wharf. His boat contained the body of a woman whose legs were evidently broken. She must have been crushed by falling timbers while sitting on deck and then blown overboard.

NEW YORK, August 29.

The following is a list of the missing:—Mrs. Longstreet, Mrs. Archibald, Mrs. McConnell, and Mrs. Emily Wordoff of Haverstrand; Abram Tompkins of Tarrytown, and three ladies who were with him; W. W. F. Tippoy of the Palisades Mountain House, Mrs. Longfare and daughter of Tarrytown, W. W. Harris Superintendent of the Belt Railroad, Moses D. Getley of Yonkers, and Mrs. Rose of Sing Sing.

T. J. Sante, injured in the explosion, died at midnight.

Not Near as Bad as Reported.

NEW YORK, August 29.

Crowds of curiosity seekers are gathered on the wharf, in front of the spot where the Riverdale sank yesterday, and watch the boats plying around the wreck, picking up whatever is floating. No bodies have been found since yesterday, and the belief strengthens, that there are now in the wreck only two or three; the list of missing being gradually thinned out, as those supposed to have gone on the steamer, or who were really passengers, are heard from as safe in the city or at their homes up the river.

Postal and Treasury Matters.

WASHINGTON, August 29.

There are now 48,049 postoffices in the United States, of which number 2,176 are Presidential offices, and 6,273 money order offices. Since the year 1876 the number of postoffices have been increased 40 per cent.

The investigation into the facts connected with the loss and subsequent recovery of 10,000 National Bank notes in the Treasury Department shows that the notes had been cancelled, and were useless to any finder, and no loss could in any event could have occurred to the Department. The loss was purely accidental and no blame can be justly attached to any clerk or employe in the Treasury. Another case of alleged attempted swindling of pension claimants was brought to light to-day by the arrest of Gould P. Austin, a discharged clerk of the Pension office, who it is said, has been writing to applicants for pension, representing himself as still connected with the Department, and able to secure favorable action on their claims. A quantity of official paper and envelopes, and a mass of correspondence were found at his room when arrested and he was held in $1500 bonds to appear in Court.

The Grand Opening.

ST. PAUL, Minn., August 29.

The arrangements for a celebration of the opening of the Northern Pacific railroad next Monday are completed. Henry Villard and party, of 400 guests, will arrive in this city next Saturday night. The day will be given up to rejoicing over the grand event. President Arthur will probably be present, as he will pass through the city about that time. Monday evening a banquet will be given at the Hotel Lafayette, at which 800 plates will be laid.

Our Future Admirals.

ANNAPOLIS, August 29.

The United States practice ships, Dale and Constellation, arrived at the Naval Academy to-day. The cadets are to be given a month's leave of absence, except those charged with hazing; and the fourth class of 105 candidates will present themselves at the Academy next Saturday, for examination.

Disorder in Hungary.

VIENNA, August 29.

Although order has been restored in Ezergig, Hungary, the scene of the late attack upon the Jews, all the shops are still closed, as the Jewish families have fled, and trade is suspended.

ROYAL BAKING POWDER
Absolutely Pure.

This Powder never varies. A marvel of purity, strength and wholesomness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans.

MISCELLANEOUS.

HEADACHES
Are generally induced by Indigestion, Foul Stomach, Costiveness, Deficient Circulation, or some Derangement of the Liver and Digestive System. Sufferers will find relief by the use of
Ayer's Pills
to stimulate the stomach and produce a regular daily movement of the bowels. By their action on these organs, AYER'S PILLS divert the blood from the brain, and relieve and cure all forms of Congestive and Nervous Headache, Bilious Headache, and Sick Headache; and by keeping the bowels free, and preserving the system in a healthful condition, they insure immunity from future attacks. Try
Ayer's Pills.

JOTTINGS.

Langtry collars at Jamison's. ‡

Jamison is unpacking new goods.‡

There are 11 men in the county jail.

New colored bordered handkerchiefs at Jamison's. *

Let every lady call at Jamison's, and see the new goods. †

The latest novelties in ladies' hand-bags at Jamison's. *

The finest assortment of ladies' and children's hosiery at Jamison's.

Charley Ziegler, Jr., last evening stepped on a broken bottle, cutting his left foot badly.

Three large bars of bullion, from the Bodie Con., went below this morning per Wells-Fargo.

Sheet music at Naspy's, No. 27 Commercial Row. Thermometer at 7, 9, 11, 1, 3—68, 76, 86, 86, 86.

The State Surveyor-General's office reports that the sale of lands for August will amount to $9,000.

Before buying elsewhere, examine Knowles & Bainbridge's full stock of ranges, stoves and tinware.

General J. H. Mathewson has been in town a day or two, looking after Uncle Sam's financial interests.

The retail trade of A. Lindley & Co. keeps Mr. Griswold busy for 12 hours out of the 24 delivering goods about town.

Alfred Joss lost a box of cream soda out of his wagon on Virginia street this morning, and it filled the street with foam.

J. F. Cole was brought up from Wadsworth last evening, having been committed to jail for 180 days, for petty larceny.

F. Levy & Bro. received yesterday, direct from the factory, enough carpeting to cover every floor in town. Call and examine.

The Palace Hotel, Pekins & White proprietors, is running full every day and night—a good place to stop for a meal, a bed or a month's board.

If you want to be shaved, shampooed or have your hair cut in an artistic manner, call on Johnny Belz, near the Palace Hotel, and you will be satisfied. †

Ladies should call and see the diamond dyes just received at Osburn & Shoemaker's. Sample colors, in wool, silk and cotton, only 10 cents a package. *

The fine, fresh ranch butter to be had at the store of J. K. Everett costs no more than a poor article, one-half of which you are obliged to throw away. It will pay to examine the quality of his full stock.‡

A cow, belonging to R. V. Borden of Reno, yesterday gave birth to twin heifer calves, the progeny of R. Ferguson's thoroughbred Jersey bull. The calves are, like their mother, roan in color, and as near alike as two peas.

WOMEN AS FARMERS.

Many Successful Maud Mullers in the Northwest.

Several women have gone to Dakota and proved that they know how to run large farms. One young lady has accumulated a vast amount of wealth by her cleverness in dealing in real estate, and making improvements on the land. The example of two or three young heroines who showed themselves not afraid to take hold of farm work and make large sums of money from wheat raising, has encouraged several others to make similar attempts. Dakota has very many energetic and talented business women who know how to make farming pay. An exchange says that "a year ago last March Mrs. Drake, a sister of Judge Smith of the Supreme Court of New York, a widow lady, located near Huron, Dakota, as a farmer. She purchased 800 acres of land, and is raising grain on a large scale. Her wheat, oat and flax fields are yielding enormous crops and the prices are good. She finds no difficulty in conducting her business to advantage."

The Very Latest.

During Conclave week, at San Francisco, it was a general remark how eager the ladies of the Eastern and Pacific States were to outshine each other in the elegance of their toilets. The contest was about even, however, and at last accounts was decided a draw. S. M. Jamison, always in the lead, sent his manager to the city to take items and purchase the very latest novelties in Fall and Winter goods, as well as fancy goods. His stock is arriving and will arrive daily during the coming month. Fifteen cases of fancy goods were unpacked yesterday and to-day, and as many more expected to-morrow. The goods will be opened and offered to the ladies of Reno and vicinity at the most reasonable rates. ‡

A Piute Opinion.

Johnson Sides is home from the Triennial, and says it was finer than the Walker Lake dance. He says it was the finest turnout he ever saw. He and three others traveled on a United States certificate, which is equal to a pass. He did not have to ride on the platform but took a seat inside. He saw the parade from the roof of Canavan & Gearhart's stable. He called every day at the headquarters of the De-Witt Clinton. He had a suite at the Franklin House, on Mission street.

HOME AGAIN.

The Festivities of a Pleasant Week Drawing to a Close—The Knights Passing East.

The Knights seem to have given up visiting Lake Tahoe and other places of interest on the Coast. They are flocking towards the rising sun at the rate of 400 or 500 per day. Last night at 11:30 o'clock a special train containing the Arcolon Commandery of Louisiana, passed east; at 6:30 this morning the first section of express train No. 1, rolled along with the Atlantic Club, and at 8 o'clock the second section came in with a heavy train of stragglers from all parts of the Union. Nearly every Commandery in the United States was represented. At 10 o'clock the DeMolays of Louisville, and Rapers of Indianapolis, got here and took breakfast. The Louisville boys are exceptionally well pleased with their visit. They but echoed the sentiment expressed by nearly everyone who visited San Francisco last week, when they said, "We were all received and entertained like lords." They carry the trophy they were so justly entitled to without any display of egotism, but are proud of the honor they achieved. They are anticipating a happy time on their arrival at Louisville, and Colonel George W. Northrup, who is in command of the corps, shows the following telegram with a modest air of satisfaction:

LOUISVILLE, Ky., August 26, 1883.

Colonel George W. Northrup, Chief Drill Corps: Louisville rejoices in your great triumph. It is the absorbing topic of the hour, and our people are anxiously awaiting the time when they can take you in their arms and welcome you to your homes. All are happy, and send warmest and sincerest congratulations.

CHARLES D. JACOB, Mayor.

Another week and the Conclave, with all its pleasant associations, will be a thing of the past.

A FATAL AFFRAY.

One Man Mortally Wounds Another, and in Turn is Killed by an Officer.

The following account of a fatal shooting affray has been received from Hawthorne: "One-eyed Ned," whose right name is William McLaughlin, while playing cards on Sunday, at Sweetwater station, with Shorty Edwards, or Cosgrove, quarreled, and Cosgrove shot McLaughlin. Deputy Sheriff Edward Moran arrested Cosgrove, who resisted and tried to escape, and was shot dead by the officer. McLaughlin was a very bad man. He lost one of his eyes in a shooting affray before he came to this part of the country, and last year he shot two men at Mill Creek, but did not kill them. The last man McLaughlin shot caught him some time afterwards and wounded him with a shot-gun. When he recovered from his wounds he went to Clinton, California, where he wounded a man named Johnson with a pistol, and escaped across the line into this State. He served two terms in the Mono county jail for affrays of this nature, and was in no more fights until he had a quarrel with Rattlesnake Dick about one month ago, in which he cut Dick in the groin. Nothing is known of his life previous to his advent in this section. Cosgrove was always a decent man, whose only fault was an occasional spree.

Storey County School Trustees.

The Carson *Index* seems to be of the opinion that the school officers of Virginia and Gold Hill will be opposed to allowing the teachers to attend a State Teachers' Institute, unless they employ, at their own expense, substitutes during their absence. As it is proposed to commence the regular sessions of the Institute Wednesday morning, to continue till Saturday evening, it will be seen that but three school-days will be lost, and it is taking a decidedly Bourbon view of the matter to think that the time occupied by attending a State Teachers' Institute is lost to the several districts. Since the above was written, it is learned that the same narrow and illiberal policy controls the Carson School Trustees; they seem to be afraid their teachers will learn something new.

Will Probably Recover.

Dr. Waggoner returned last evening from Pyramid, where he went to attend the man Parsons, who was shot a few days ago, and reports that the ball followed the ribs and was found in the muscles of the back, where it was extracted. The Doctor seems to think, with proper care, his patient will pull through. It is learned that Parsons, who had been drinking, and another man were shooting at a mark, and the former, thinking he had emptied his pistol, was examining it, with the muzzle towards him, and was shot as before stated.

A Deplorable State of Morals.

The Carson *Appeal* learns that it is no unusual thing for the white woman, who was associating with Indian bucks, while drunk on Sunday last, to be found in that sort of society. This matter should be looked into, and if true, her children should be taken from her and placed where they can be properly looked after.

His Defender.

R. H. Lindsay goes to Truckee to-morrow to defend Fred Beck, who cut a man named Donohue at the Boca Hotel, Boca, last Sunday morning.

Study Them and Vote Right.

The following amendments to the Constitution need a majority vote at the election to become in force:

Section II of Article IV is amended, changing the time of the convening of the Legislature from the first Monday in January to the first Monday in February. This is for the purpose of giving the State officers an opportunity to prepare their reports, so they will be in readiness to submit to the Legislature when it convenes, thereby preventing great waste of time which is now occasioned by the want of time during the first two or three weeks of the session.

Section I of Article II is amended so as to require naturalized citizens to perfect their citizenship six months prior to the time of voting. This is evidently for the purpose of preventing political parties and candidates from defraying the expense of naturalization papers for such persons as do not care enough for the privilege of exercising the elective franchise to pay for themselves. It also disfranchises all persons convicted of the offense of selling their votes.

Article XVI is changed so as to render it necessary for constitutional amendments to be adopted only by one Legislature instead of two consecutive ones, before submitting them to the voters for ratification. It requires, however, the vote of two thirds of the members of each house instead of a bare majority, as under the present system. The Article is further amended by fixing the minimum number of members of a Constitutional Convention at one-half the membership of both branches of the Legislature, instead of the aggregate number as it now stands.

Section 3 of Article XI is amended so as to permit the proper Board to invest the funds accruing from the sale of State lands for educational purposes in the bonds of other States, instead of restricting them to United States and Nevada State bonds, as at present.

The Dude in the Sleeper.

One of the numerous annoyances to the tired traveler is the man who takes an hour to wash himself in the morning. He gets up at the busiest time, when the whole crowd wants to dress, and goes out in the dressing-room in his undershirt and with his pants hanging by one button. He has a kit of tools in a leather case that would run a whole barber shop. He spreads them out on the marble wash-stand and effectually bars out the next man. He proceeds to splash water all around for about five minutes, and then rubs himself with the towel for five more. He takes as much time for putting on and adjusting each article of dress as any belle dressing for a ball. Everything is done leisurely, and without any regard to the crowd of gentlemen waiting for their turn. It provokes one to the remark that anybody who cannot travel one night without so much washing should have a special car or stay at home. Mr. Tinnin is about 43.

Making the Acquaintance of Strangers.

Just a few words, girls, and don't get mad. Go slow on getting acquainted with every stranger who stops a day in town. Men are on the lookout for young women to flirt with. An eastern exchange says: Don't try to be the first to catch a commercial traveler or receive his company at your homes, or go with him to a social gathering. This class of men, as a rule, make fun of you to your friends. Don't snub the young man you know, to gain the momentary affection of strangers. It never pays. You mean all right, but an unjust public is sure to hint many wicked things about you. Many young ladies fall out of notice, socially, by being ruled by a desire to flirt with strangers. Take the advice offered, and see how much happier you will be when you settle down in homes of your own.

The "Indian Boy" Mine.

Joe Shannon, owner of the Indian Boy mine, near Steamboat Springs, will make a shipment of 10 or 12 tons of ore from the mine some time this week, says the Virginia *Chronicle*. He experiences trouble in hauling the ore to the railroad, as the ranchers in that vicinity are haying, and have use for all the available wagons. The distance the ore has to be hauled is seven miles. Three miles of this distance can be saved by "sledding" the ore down a hill of 400 or 500 yards—a difficult task. Joe will go down to his mine to-day to make arrangements for shipping the first car-load, which goes to San Francisco.

Destructive Forest Fires.

The fires in the mountains seem to be on the increase, and unless there is a rainfall soon, which is not probable, the lumbermen are liable to sustain great losses. Lonkey & Smith's mill is reported to be in great danger; 200 men have been employed to fight the fire.

Not a Brakeman.

It seems that Rattlesnake Dick was not in the employ of the Carson & Colorado Railroad Company, but was at work on a new building, he being a first class stone-cutter, which trade he learned while in the employ of the State.

THE CATTLE KINGS.

An Extensive Beef-Producing Section Controlled by Two Men.

The greatest cattle range in the west is now owned by Sparks & Tinnin of Tecoma, Nevada, who have consolidated half a dozen large ranches into one. A year and a half ago they bought two ranches on Thousand Springs Valley, and made one of them. They bought a lot of land on Goose Creek, running up to Idaho. On the Fourth of July they bought out Barley Harrell's rancho, in Snake River, Idaho, for $900,000. This gives them a very safe and large breeding range, running for 50 miles on the Snake, where the Winters are not severe, and cows will raise a large percentage of calves and a good rancho with hay and grain near the track, where they can drive their beef cattle in the Fall and ship them at their leisure, no matter how hard the Winter or how deep the snow may be. They have now 70,000 head of cattle and will brand 17,000 calves this Fall. They are undoubtedly the largest of the cattle kings of the coast. No one begins to breed the calves or handle the herds that they do. The largest individual owner in Wyoming is Judge Carey of Cheyenne, who has 30,000 head. Swan Brothers control a joint stock company that has 87,000 head, but its stock is owned all over the country. Sparks & Tinnin are still young men, and have plenty of rustle in them yet. Both are natives of Texas. Mr. Sparks is not 40 years old and has a bank in Georgetown, Texas, a rancho at Cheyenne and one in Texas for fine stock, besides other pieces of property scattered about that he probably needs a list to remember.

Churchill Items.

The weather continues oppressively warm.

Some Indians were caught killing a calf the other day, and held to answer before the next Grand Jury.

On Saturday last, while corraling some wild stock on his range at Stillwater, Thomas Pike's horse fell, throwing him violently to the ground, fracturing his right arm near the shoulder, besides giving him some severe bruises about the head and chest. He hopes to be about again in a few days.

E. C. Wightman has sold his stock cattle, at $25 for grown cattle and $10 for calves.

The threshers will start up this week. Owing to the late rise in California, farmers expect to get $25 for barley and $30 for wheat.

Senator Kaiser's family start east on Wednesday, to be gone several months.

W. L. Pritchard (Nick of the Woods) left for California Saturday with his entire band of thoroughbred and grade horses. He does not like this country for stock raising. J. W.

Washoe City Relocated.

During the flush times in Washoe City, some preliminary steps were taken towards gaining a Government town site title, but by some mismanagement the title was never perfected, and as soon after, the place commenced going down, no one seems to have paid any attention to the matter until recently, when the whole ground, embraced in the original City of Washoe, was in the State Land Office' "selected" by parties whose names are, to the GAZETTE, unknown. The selection effects the title to property occupied by Theodore Winters, W. H. Joy, P. N. Marker, and many others. Legal proceedings will at once be commenced to quiet title.

An Unusual Case.

Monday evening's *Chronicle* says: About a week ago a valuable livery horse, belonging to Peterson & Samuels of this city, stepped on a large nail, which entered his foot. The nail was extracted, and it was thought the animal was recovering. Last Saturday he was attacked with lockjaw, and last evening was killed to end his misery. The brute suffered intensely for 24 hours preceding his death. He was purchased six months ago by the firm for $250.

Dog Days in Carson.

The Carson *Index* seems to have a slight touch of canine distemper which may evolve into real hydraphobia. This morning's paper contains a reproduction of a city dog ordinance passed in 1880, of nearly a column in length. The ordinance itself ought to be sufficient to rid the State capital of every cur in the place. Why sections 5, 6, and 7, "explaining the position of the collar on the dog," were not published, is difficult to understand.

Invalid mothers, weak children, nervous and fretful infants are benefited by using Brown's Iron Bitters. Harmless but efficacious.

Fire and Warm Weather.

SUSANVILLE, Aug. 28.

Editor Gazette:—A fire in the mountains three miles west of here burned 500 cords of wood belonging to W. P. Hall. The woods are still on fire.

The thermometer was 96° yesterday.

On His Way Home.

Hiram Cain, an old time Humboldt miner and stock-raiser, having sold the last of his cattle, about 500 head, to Kirman & Rickey, passed Reno this morning on his way to his home in Rock Island county, Illinois.

Humboldt Items.

The *Silver State* of the 28th inst. says:

Two droves of beef cattle are on the way here for shipment—one from Colonel Hardin's ranch and the other from Poley, Heilborn & Co.'s

Sir Knight Joseph Marzen of Big Meadows took his black charger, Humboldt Boy, a $2,000 horse, to the Conclave, and the people who saw the procession say he was the finest looking steed in the ranks.

J. W. Mills left yesterday for New York city, to be absent three or four weeks. He says there is more good ore on the dumps at the Humboldt Queen mine than at any other mine in Nevada.

Yesterday afternoon there were heavy showers of rain up the Humboldt from Beowawe. Here it blew quite brisk for a while, but no rain fell, although it rained dust for an hour or two.

S. R. Young of Lovelock has sent a fine specimen of nickel ore to this office. It is from the mine of that mineral, at Cottonwood, owned by Bell, Curtis & Co. It is from the lowest level of the mine, the permanency of which is now established beyond a doubt. The ore is partly metallic, and is almost as heavy as its bulk in lead.

G. W. Bothwell, owner of the new mill at Bernice, arrived at Lovelock Sunday, on his way to San Francisco. He said the mill had started up on ore from the Goodall mine, but had to shut down in consequence of the scarcity of water. A well has been sunk near the mill, and as soon as a pump can be put in position, the mill will resume operations.

From Pyramid.

Pierce Evans recieved this morning from Pyramid, a rifle bar of a Burleigh drill, which, in working the intensely hard syenite of that locality, became so heated that it melted and broke. Mr. E. sent the bar to Virginia for repairs. The foreman reports that 10 feet per day are being made in the Pyramid mine, in harder rock than was ever found on the Comstock.

RANCH FOR SALE.

A RARE CHANCE

FOR A

LARGE INVESTMENT.

One Hundred and Six Thousand Acres.

THE WELL-KNOWN AND VALUABLE

CLOVER VALLEY RANCH

Located in

Humboldt County, Nevada,

FOR SALE:

4,000 Head of Graded Cattle.

84 Head American Horses, including 50 Fine American Brood Mares 6,000 Acres Fine Meadow Land, Capable of Producing

5,000 TONS of HAY per ANNUM

240 ACRES IN ALFALFA, WELL Irrigated, producing five tons per Acre. 28,000 acres under fence.

MOWERS, REAPERS, FARMING IMPLEMENTS.

With all the appliances of a stock and grain farm to be included in the sale.

The Whole Ranch Comprising One Hundred and Six Thousand Acres.

CONTROLLING TWO HUNDRED AND FIFTY THOUSAND ACRES.

THE CLOVER VALLEY RANCH, OR, as it is sometimes known, "The Iron Point Stock and Grain Ranch," Nevada, embracing one hundred and six thousand acres of land, is now offered for sale upon terms which represent a liberal concession to the purchaser, and offers high inducements in the way of a safe, permanent and profitable investment.

With this ranch will be sold four thousand head of stock cattle, now in splendid condition, embracing thoroughbred Durham bulls, purchased at a cost of six hundred dollars each. The entire herd is composed of grades produced by crossing the best American cows with the very best thoroughbred Durham bulls ever imported to this country. There are no inferior animals in the herd; no Spanish cattle or crosses from Spanish cattle. These ranches embrace six thousand acres of meadow land, which will produce about five thousand tons of hay per annum. There are two hundred and forty acres of fine alfalfa under irrigation, capable of producing twelve hundred and fifty tons of hay per annum. Twenty-eight thousand acres of this ranch is now under fence, redwood posts set sixteen feet apart, with four barbed wires, nearly new. Buildings attached to the ranch consist of one good one story and a half house, with four rooms, a stone cellar, and stone dairy house, well built. Horse barn forty by one hundred feet, with stalls for thirty horses. There is a splendid creek of living water running through the ranch; also, an excellent well of water with two or three springs. Inside the inclosure there are two springs from which issue about twenty-five hundred inches of water, sufficient to irrigate twenty-five hundred acres of land which lie below them, and which may be subjected to irrigation at but little cost. Included in this sale there are two thousand acres of fine agricultural and meadow land, about seven miles northeast of the ranch buildings, upon which there are one hundred and twenty acres in alfalfa finely growing. This is a fine grain ranch, and will produce forty to fifty bushels of barley per acre per annum. There is a good orchard in bearing, and a live stream of water affording abundance of trout. About four hundred acres of this small ranch is under fence. The vendors of these ranches own and control the water rights indispensable to the use of two hundred and fifty thousand acres of land for grazing. There is sufficient water to irrigate twenty-four thousand acres in the lower ranch, and one thousand in the upper, making a total of thirty-four hundred acres.

The sale will include eighty-four head of good American horses, fifty of which are large fine brood mares, the remainder being saddle horses, well trained for herding cattle and well broken work horses; also, there will be included in this sale grain headers, eight mowing machines, harrows and all farming implements necessary to run this ranch.

Six years ago this ranch maintained throughout the year about forty thousand head of cattle. The range was injured by being overstocked, and the stock was sold, the owner of this ranch selling twelve thousand head. After a rest of six years the range was recuperated and is now as good as when in its primitive condition. The four thousand head of cattle now offered for sale are the progeny of well-selected cows from the best dairy herds in California and Nevada. They have increased to their present numbers very rapidly. Eight hundred calves will be produced in 1883, and estimating upon the basis of the past experience of increase the band of 1884 will exceed that number by one-half. The range is capable of supporting, without being overstocked, twenty-five thousand head, and the present herd may be increased to that number without seeking other range than that now proposed to be sold.

The Clover Valley ranges embrace:—Township 35 north, ranges 41, 42, 43, 44, east; township 36 north, ranges 42, 43, 44 east; township 38 north, ranges 43, 44 east; township 39 north, range 41 east—Mount Diablo meridian.

Title based upon patents from the United States will be given to one hundred and six thousand acres of land, commanding about one hundred fifty thousand additional acres, to which the ownership of the land now offered for sale is a perfect key. The present value of the property is estimated to be worth four hundred and twenty-eight thousand dollars. The whole is offered for three hundred thousand dollars, of which one hundred and seventy-five thousand collars must be paid in cash, one hundred and twenty-five thousand dollars in five years. Deferred payments to bear seven per cent. interest per annum.

The cattle and horses will be sold by actual count. If the herd fall short of four thousand head of cattle, or eighty-four head of horses, a pro rata amount for the shortage will be deducted from the total purchase price.

Reference is had to ALVARO EVANS, capitalist, of Reno, and R. L. FULTON, RENO GAZETTE, Reno, for verification of there presentation set forth above. Inspection of the stock, lands and other property is solicited.

LOST MANHOOD RESTORED.

THE COLLEGIATE INstitute for the cure of special diseases and so-called incurable chronic diseases. Dr. Liebig's German Invigorator is positively guaranteed to cure nervous and physical debility, Seminal Weakness, Lost Manhood, Spermatorrhea, Loss of Energy, Ringing and Dizziness in the Head, Melancholia, Hopeless Feelings, Prostatorrhea, and all the results of youthful imprudence and excesses of mature years. The Doctor, a regular college physician from Europe, will agree to forfeit one thousand dollars for a case the Ivigorator will not cure under special treatment and advice. The reason so many cannot get cured of Weakness and the above diseases is owing to a complication called PROSTATORRHE, which requires peculiar treatment.

Dr. Liebig's Invigorator No. 2 is the only positive cure for Prostatorrhea. Price of either Invigorator, $2 per bottle; six for $10. Sent to any address on receipt of price, or C. O. D. Responsible persons can pay when cured. Strictest Secrecy Maintained. Patients cured at home. Dr. Liebig's Dispensary has an Elegant Drug Store in its building.

Too frequent evacuations of the Bladder and Ropy Sediment in urine are symptoms of Secondary Seminal Weakness and Prostatorrhea. Complaints readily yield to the DR. LIEBIG TREATMENT.

Ordinary Cases—Any recent case of special or private diseases cured for $10. Remedies sufficient to cure will be promptly sent, with full directions and advice, on receipt of $10. All packages are securely covered from observation.

Invigorator Samples Free.

To prove the wonderful power of the GREAT GERMAN INVIGORATOR a $2 bottle of either number will be sent free of charge. Persons ordering a free bottle will only have to pay expressage on delivery.

Most Powerful Electric Belts Free to Patients. Consultation, examination and advice free and private. Call or write.

Treat all Chronic and Special Disease

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal weakness or private disease of any kind or character which he undetrakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albuman will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars. Call or address

GENERAL NOTES.

The New York Mail in referring to the unvailing of the Garfield statue in San Francisco, says "evidently Garfield still lives in the hearts of the people. It was in California that the last, meanest and most effectual part of the mud campaign was fought—the Morey letter forgery business. Perhaps this is the reason Californians experience a gorge of disgust with the peculiar tactics which seek to change the popular verdict about him, now that he is dead and voiceless."

The New York Herald has this to say of the constitutionality of the Chinese restriction law: "A treaty is the supreme law of the land, in the sense that an act of Congress is; that is until it is abrogated or suspended by a later act of Congress. On any subject within its sphere, Congress may pass a law violating every clause of an existing treaty. The enactment of such a law may amount to a flagrant breach of faith with a foreign power, but its constitutionality cannot be questioned on the ground that it is in conflict with a treaty. The issue thus raised is one for the Government of Congress, not the Courts to deal with."

Within a few years from this time copper mining will take the lead as the most profitable of all other mining in this State. There are innumerable ledges and deposits in Nevada that carry from four to eight per cent. copper that is now practically worthless that within a few years will be made to yield handsome returns. Mining on this Coast is in its infancy yet. What has been and is now accomplished in other countries can and will be accomplished here. The Columet and Hecla mines, on the south side of Lake Superior, yield but four and one-half per cent. of copper, and yet the stock pays a handsome dividend to its owners. The copper mines of Sweden which yield but one and one-half per cent. of metal are worked at a profit, while the Newfoundland copper mines, which are considered very valuable, yield only six and one-quarter per cent. Our copper prospectors would hardly take a second look at even the best of the ores mentioned above. What they want are ores that show from thirty to sixty per cent.

A singular occurrence happened to a party of Eastern Knights last Sunday. There were four of them in the party, and desiring to travel together engaged two sections in the same sleeper. Soon after leaving Sacramento one of the party was missing. Search was made for him high and low, but he could not be found. It was finally concluded that he had been left at a way station, and the three decided to come through to Reno and wait his arrival, but imagine their astonishment when the train stopped to see their lost companion step from the cars ready to join them in their morning repast. The joke is, one of the party's name is Fountinel. When the train left Sacramento the lost Knight got into the wrong car. He knew the number of his section and went to it, and finding it occupied spoke to his partner, Fountinel, who answered. Satisfied that he was all right he went to bed and slept soundly till morning. When he awoke he was astonished to find himself in bed with a stranger. There was mutual astonishment, for the stranger's name was Fountinel and having been addressed so familiarty supposed he had invited an old friend to share his berth. Both berths being of the same number and occupied by men of the same name the mistake was not to be wondered at, after all, if it was a little singular.

MISCELLANEOUS.

AYER'S
Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me.
HORACE FAIRBROTHER."
Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,
MRS. EMMA GEDNEY."
159 West 128th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried.
A. J. CRANE."
Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL.
JOSEPH WALDEN."
Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles.
E. BRAGDON."
Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will *always cure* when the disease is not already beyond the control of medicine.
